#### AN UNFIT APPOINTMENT.

The appointment of D. Lowner Surre as Commissioner of Public Works proves how false and hypocritical are all Mayor HEWITT'S professions of a desire to secure honest government for the city.

Apart from all other considerations, it has been shown that under Gen. NEWTON'S management of the Department precisely the same methods have prevailed as those which were the foundation of charges against HUBERT O. THOMPSON, which caused his arraig ment by the Council of Municipal Reform, his censure by a legislative investigating committee, his presentment by a Grand Jury, and came near procuring his indictment for malfeasance. It is conceded that these methods have been due to Deputy SMITH's influence. It has been shown that the \$999 contracts, which have become so notorious, have been shared by D. Lowers Smith's brother a well as by Thompson's contractor, RICHARD A. CUNNINGHAM.

Surely these facts ought to be enough to deter any Mayor having consideration for the public interests from intrusting such important department to the old deputy of TROMPSON and SQUIRE, The people do not care a straw who makes these appointments, but they do insist that the public offices shall be placed in the hands of fitting and trustworthy men, and shall be better conducted than they have been for two years past.

EMBARRASSMENTS OF CHIVALRY.

Chivalry is in a bad way just now. The BLACKBURN-RUCKER difficulty has not turned out well for either of the principals concerned, nor for some of their friends. Judge RUCKER disgraced himself when he revealed what was evidently a private conversation he had with the President on the introduction of Senator BLACKBURN, even if his story was correct. Senator BLACKBURN disgraced person he had taken to the White House and indorsed was a man unfit to be recognized by gentlemen. The blusterers who bullied Judge RUCKER at a safe distance did themselves no honor. The result is that chivalry is compelled to take the back track. Senator BLACKBURN has publicly apologized for the bullying language he used towards Judge Rucken, and will probably have to make a personal retraction In addition. This is bad, very bad, for Ken tucky, sah !

Now comes the Richmond State, with an outburst of chivalry against ex-Congressman JOHN S. WISE. The editor applies to the ex-Congressman the delicate terms of disgraced renegade, abandoned adventurer, blustering braggart, cropped bully and branded pol-

A retraction and apology will probably follow in a few days. But on the whole, chivalry is, as we have said, in a bad way. It is rapidly becoming merged in Billingsgate, and its valor is growing to be of the Bob Acres character.

### AN OFFENDED DUDE.

An incident on the Sixth Avenue Elevated Railroad yesterday affords a new insight into the character of the dude. One of that species was seated in a crowded train, when the swinging of the cars around a curve in the road caused a young woman who stood opposits to him to plump down fairly and squarely into his lap. Still the dude kept his seet, although with heightened color, while the young lady regained her footing and with much embarrassment resumed her standing

But the Sixth Avenue Elevated curves are numerous, and scarcely had she risen when another swing returned her, with even greater force to the young man's knees. Then the dude rose from his seat with anger clouding his brow and and accused the young woman of "doing it on purpose."

Cries of " shame " sent him speedily to the platform and he left the train at the next sta-

tion. Such a fellow ought to be proclaimed | A so that his punishment might be never to have a young woman sit on his knee again during the whole course of his life.

BURLESQUE FLIRTATION.

The London Galety Company has already commenced to introduce variety performances into private circles in the city. A young married man has been so captivated by one of the fair burlesquers as to cause his wife to abandon him in a fit of jealousy. leaving a little three-year-old daughter on his hands, to distract his attention from the Gaiety damsels.

Of course the young husband is wholly to blame. What business had he to flirt with actresses when he had a wife and child to attend to? Besides, the ladies of the FARREN troupe are too mature and experienced to enter into such giddy amusements as flirtations with married men. Miss Farren, who has been nearly a quarter of a century in the business-of burlesque acting, we mean-would never encourage or permit such impropriety on the part of her experienced and well-preserved artistes.

#### A SAD HISTORY.

The divorce case of FREDERICK HURTT against Louise Huntr, about to be tried in the Boston courts, gives to the world a very sad domestic history. Mrs. Hunrr is the daughter of a clergyman, the Rev. WILL-IAM WAGG. She was eighteen years old, and a very beautiful girl, at the time of her marriage in 1881. The match was in every respect a desirable one, and during an extended trip in Europe and s residence in this city the young wife and her husband, surrounded by every luxury, were entirely happy.

Mrs. Hunry took a violent cold, and was attacked by neuralgia, which became so scute that the doctors treated her with morphine. The constant pain made her resort to the drug more frequently than her physician knew, and she became a slave to its use. To wear her from this Mr. HURTT took her tolan opium joint and allowed her to try the pipe. The one evil took the place of the other. The young wife became a secret attendant at the place and her degradation fol-

What a lesson this teaches against the resort to such drugs, even as remedial agencies. except under the most extreme and unavoidable circumstances.

The Rev. Howard T. WIDDIMAN married his present wife while a former wife, from whom he was divorced, was living. The disclosure of this fact has resulted in a decision by the church authorities that he must pu away his wife or leave his pulpit. He has chosen to give up his church rather than a woman who has been his faithful partner in life, Every right-minded person will approve his choice. He does no believe that the gates of heaven are too narrow to admit a person who has not divested himself of all humanity.

The report of the Commissioners for the New Parks has been substantially confirmed by the General Term, the exception being that a few awards which are objected to by owners are reserved for further hearing. It will be to the credit of the next administration if these public improvements are vigorously pushed for the next two years.

paring its report. Its investigation was thorough, and its recommendations will doubtless be valuable.

A new National bank is to open next Monday in this city. What retiring statesman or when he declared that a wounded politician is in want of a Presidency?

Aldred Edwards was poisoned last week at Tiffin, and now the mystery of his poisoning is made clear. The doctors insisted that he was poisoned by belladonna, but he declared was poisoned by belladonna, but he declared that he had taken nothing. It now develops that he had been wearing a belladonna plaster on his chest, and, becoming heated, had removed it and scratched his chest until it bled, then put the plaster back. The belladonna was taken into the broken blood veins and thus passed through the system. While the doctors were working with him the plaster was accidentally removed, and thus his life was saved.

I believe that any political of experience and sagacity who has made a study of the campaign and its results will tell you that all our literature and oratory did not make as many as five thousand converts, while there is every reason to believe, and I think it is susceptible of proof that the Republican managers purchased outright not less than 25,000, and possibly as many as 100,000 votes. Must Pay Tax on Capital. The General Term of the Supreme Court has af-

firmed the order of the Special Term, made last June, imposing a fine upon the Meyer Sniffen Company (Limited), of this city, for non-payment of a tax on its capital stock for 1886. The company was assessed for that year at \$75,000 and taxed at \$1,800. It paid \$1,674.68, but refused to pay the balance, claiming that the same was pay the balance, claiming that has based upon the flact that under chapter 261, Laws of 1881, the capital stock of the company was taxable in New York County for local purposes only, not for State purposes, but that the tox for 1885 included a State tax of .1671 per cent., amounting to \$125.82. No County for local purposes only, not too be purposes, but that the tox for 1885 included a Slate tax of 1871 per cent., amounting to \$125.82. No sleeps were taken by the company, as provided by law, to have the tax reviewed.

In the proceeding by the Receiver of Taxes to enforce the balance uppaid Judge Lawrence held that it was too late, in such proceeding, to question either the legality or quantum of the tax, and imposed a fine of \$145, to be applied to the payment of the tax, interest and charges. The opinion of the General Term just rendered sustains the position taken at Special Term—that the tax cannot be assailed collaterally. Charles B. Meyer appeared for the company, George 5. MARKET STALLS GROAN UNDER THE WEIGHT OF THANKSGIVING POULTRY.

Well-Ped and Luccions-Looking Gobblers, Fat Chickens, Ducks, Quall and Grosse in Great Abundance and at Pair Prices-Promise of a Universal and Hearty Cole-

Great preparations have been made this year for celebrating Thanksgiving Day. The markets are loaded down with provisions and the indications are that this year the hol. iday will be observed even more generally

than as heretofore. An Evenino World reporter walked through Washington Market this morning, and the sight he saw was an enticing one indeed. The narrow pathways were banked up on both sides with a solid wall of poultry and other good things that will go towards filling the inner man day after to-morrow.

Turkeys, chickens and geess were there in plenty, and on the other side of the market the produce dealers had dressed their stands with such a profusion of vegetables that the
